## artistic project

### of the host organisation

- **fields of expression proposed for the residency:**

The Centre Méditerranéen de la Photographie would like to welcome an artist who intends to develop his project in the photographic media.

- **description the general artistic project of your structure:**

The Centre Méditerranéen de la Photographie is working to consolidate a strictly established photographic resource centre, to launch a network of clearly defined exhibition sites and finally to engage fully in school and adult education programmes in photography.

- **particular frame offered for this residency:**

The theme of this residency is the involvement of the artist with a marginal section of the population, through the production of a photographic documentary in the suburbs of Bastia.

- **the means of encouraging exchanges among different forms of expression:**

The 'Centre Méditerranéen de la Photographie' will call upon the resources of cultural institutional partners (FRAC, Cinémathèque, Museum of Corsica, Cultural Centre Una Volta).

- **the means of fastening interactions with the human, social and economic contexts:**

The methods are multiple and the choice will be determined by the nature of the artist's involvement.

- **human resources which will enable the artist to develop his project:**

The team of the Centre Méditerranéen de la Photographie is made up of a general and artistic director, an educational director, a cultural intermediary and a secretary. The cultural intermediary will accompany the artist in the development of his project.

- **material resources which will be available for the artist:**

The artist will have access to the black and white laboratory and to the library of the Centre Méditerranéen de la Photographie.

- **ways of promoting the artistic work:**

An exhibition of the artist's project will be organised at the end of his residency. We will give a technical and artistic support to the artist adapted to the nature of his/her work
